CAREER SUMMARY

I am a data analyst with two (2) years of experience in handling, analyzing, visualizing and further providing insights about data. I have handled a couple of projects including Card issuance analysis for Wema bank, Lagos Zone and Business Intelligence Analysis for Excellence Fabrics Lekki, where I interpreted, analyzed and visualized data in order to furnish insights for business intelligence needed to guide business decisions

SKILLS

- Microsoft Power BI (Power Query, Visuals Builder)
- Microsoft Excel (Vlookup, Conditional Formatting, Pivot Tables)
- SQL (MySQL, SQL Server)
- Python (Pandas, Pandas profiling, NumPy, Plotly, Matplotlib)
- Additional skills: Microsoft Office suites (MS Word, MS PowerPoint, MS Outlook)

PROJECTS

- **Sales Analysis for Excellence Fabrics Lekki**
  - Used **Microsoft Power BI** to analyze, interpret and visualize the company's sales using dashboard and gave recommendations for improved sales.
- **Card Issuance analysis for Wema Bank, Lagos Zone**
  - Used **Microsoft Excel** to analyze and interpret the dataset to give insights about carded and uncarded customers and clearly presented the inferences on a dashboard for better decision making.
